

QualiProtec® Cleaner S Acidic Cleaner for Eloxal

Product Description

Qualiprotec Cleaner S has been developed specifically for the QualiProtec Façade Renovation System for the acidic cleaning of anodized surfaces.

Qualiprotec Cleaner S is particularly suitable for the cleaning of heavily soiled anodized aluminium.

Application

Rinse surfaces with clean water to remove loose particles of dirt which could possibly cause damage.

Apply QualiProtec Cleaner S with a brush or special washer and leave on for approx. 1 minute to take effect, but do not allow to dry out. The cleaned surfaces, any outflow, and the cleaning agent should be washed off as soon as possible with plenty of clean water. Acid cleaners dry off and – unlike alkaline cleaners – do not react when subjected to moisture again, but corrosion and spotting may result if the cleaning agent is left on the surface for too long.

Do not apply at temperatures below 10 °C, to warm surfaces, or in the blazing sun.

Protect surfaces which are not acid-resistant. This product is not suitable for organically coated aluminium, chrome, brass, synthetics, etc. Surfaces should always be tested for acid-resistance before use.

Special Notes

The information contained in this technical data sheet is based on general technical standards and is meant for specialists. Any changes in the recommended operating procedures or specified environmental conditions may significantly influence the results. Our guarantee covers only the quality of the material delivered. We do not undertake any responsibility for the application. In case of doubt, we recommend contacting our Technical Service. Our products are under constant development. Therefore please note date of issue of our technical data sheet and ask for latest edition.

Safety Measures

Avoid contact with skin and eyes, and observe the application and safety measures of the Safety Data Sheet.

Technical Data

Color	Dark red
Contents	Tensides, phosphoric acid ester, acetone alcohol
Chemical Properties	Acidic
pH-Value	~ 2,1
Packaging	Containers of 10 lt.
Dilution	Up to 1 : 5 with water
Yield	Depending on degree of soiling
Shelf lifet	2 years in closed container. Protect from frost.
Waste disposal	Qualiprotec Cleaner S is biodegradable and waste water friendly. However, the local waste water regulations must always be observed.
